RESPONSIBLY CRAFTED, THOUGHTFULLY DESIGNED

Our commitment to sustainability goes far beyond the spaces our products occupy. Every item in Free Space is crafted from recycled nylon, reducing its embodied carbon footprint. This reflects the heart of our M/PACT™ carbon-neutral program, ensuring that our products are as environmentally responsible as they are aesthetically pleasing.

RED LIST FREE

Healthy materials are the foundation for effective circularity, reducing community pollution and cleaner living for all.

- The Living Building Challenge Red List contains the “worst in class” materials, chemicals and elements known to pose serious risks to human health and the greater ecosystem.
- Red List Free certification is the absence of Red List chemicals in building and home furnishings.
- Our products have been completely vetted and verified to contain no Red List Chemicals at levels at or above 100 ppm or 0.01 percent.
- Affords superior recycling potential of clean-based products.

Achieving LBC Red List Free is a commitment to significantly cut down on the output and use of harmful chemicals. It reflects our company’s prioritization on human health and ensuring a brighter future for generations to come.
